USA

WHEN: May 17th – 19th Daytime & Evening Events. Full schedule available online.

WHERE: 401 East 84th St. (@1st Ave), lower level, New York, New York, USA

INFO: MOMMuseum.org (<http://www.mommuseum.org/upcoming-conferences>)

WHO: The MOM Conference and MAMA Expo is an annual event, supporting academic excellence and creative collaboration in the area of Mother Studies. Each year, organizers work with universities, and performance arts venues to create an experience that is both educational in nature, and supportive of women in the arts. The International Museum Of Motherhood (M.O.M.) burst onto the scene in September of 2011, embodying a living, breathing, community-centered arts, media and social change space focused on amplifying the voices and experiences of mothers, and connecting 'the cultural family' while pioneering new areas of academe in *mother studies*. M.O.M. is the first and only facility of this kind, and is the proud organizer and host of this year's events.

FEATURING: Academics, PhD students, artists and authors from around the world.
